Uniden Cr2021 Manual - bitofnews.com

Uniden is much more stable in an upright position, but not that stable. The Uniden doesn't use up batteries at anywhere near the rate of the Sony 2001 (could anything?) The Uniden is "surprizingly up to date" because, outside of synchronous detection, the current portables are still the same design - possibly even the same chipsets. I ...

1952-54 include world-wide radio who's who.

"This book presents the histories of the major North American shortwave clubs and reviews the professional and listener-generated shortwave literature of the era. It also covers the DX programs and other listening fare to which shortwave listeners were most attracted and the QSL-cards they sought as confirmation of their reception."--Provided by publisher.

As radio developed in the early 1920s, the focus for most people was the AM band and stations such as KDKA, the first broadcast station. There was, however, another broadcast method that was popular among many early enthusiasts--shortwave radio. As is true today, the transmission of news and entertainment programs over shortwave frequencies permitted reception over great distances. For many in America and beyond, shortwave was an exciting aspect of the new medium. Some still tune the shortwave bands to enjoy the programming. Others pursue broadcasts for the thrill of the hunt. This book fully covers shortwave broadcasting from its beginning through World War II. A technical history examining the medium's development and use tells the story of a listener community that spanned the globe. Included are overviews of the primary shortwave stations operating worldwide in the 1930s, along with clubs and competitions, publications and prizes. A rich collection of illustrations includes many QSLs, the cards that stations sent to acknowledge receipt of their transmissions and that are much prized by long-distance collectors.

This reader in ethnobotany includes fourteen chapters organized in four parts. Paul Minnis provides a general introduction; the authors of the section introductions are Catherine S. Foeler (ethnecology), Cecil H. Brown (folk classification), Timothy Jones (foods and medicines), and Richard I. Ford (agriculture). Ethnobotany: A Reader is intended for use as a textbook in upper division undergraduate and graduate courses in economic botany, ethnobotany, and human ecology. The book brings together for the first time previously published journal articles that provide diverse perspectives on a wide variety of topics in ethnobotany. Contributors include: Janis B. Alcorn, M. Kat Anderson, Stephen B. Brush, Robert A. Bye, George F. Estabrook, David H. French, Eugene S. Hunn, Charles F. Hutchinson, Eric Mellink, Paul E. Minnis, Brian Morris, Gary P. Nabhan, Amadeo M. Rea, Karen L. Reichhardt, Jan Timbrook, Nancy J. Turner, and Robert A. Voeks.
