Listed below are some of the features included in this TM to help locate and use the provided information. This TM has been organized using the Work Package (WP)

concept. Each chapter contains a series of WPs rather than sections and paragraphs. Each WP is designed to stand alone as a complete information module. If you keep the section(s) of this TM in a loose-leaf binder, you will be able to remove just the WP needed to complete a

specific task. Each WP is numbered using a four-digit number beginning with WP 0001. WPs are numbered sequentially throughout the TM (e.g. WP 0022, WP 0023, etc.). The Table of Contents lists each chapter and WP title, as well as all figures and tables contained

within each WP.

Figures and tables
are numbered

sequentially within

each WP. The WP

number is located at
the top right of each

page. It is also

located at the bottom

of the page with the

WP page number

included (0001-1

Information WP (WP
0001, General

Information). Each
WP starts on a right-
hand page. This is

done so you can
remove a single WP
from the paper TM if
needed for a task.

Blank pages are
assigned a number,
but it appears on the
preceding or following
page. For example, if

Download Free Us Army

page 0001-10 of a WP is blank, page 0001-9 will have the number 0001-9/10 blank; or if page 0001-1 of a WP is blank, page 0001-2 will have the number 0001-1 blank/2. Each WP containing step-by-step maintenance or troubleshooting procedures will end with the words END

OF TASK, and each
WP ends with the
statement END OF
WORK PACKAGE.

Think of each WP as
a small, standalone
TM.
