are some engines still in builder and dealer inventory. The 4.3GL has been in production at Volvo Penta only since 2007, but it's based on a veteran V-6 block that's been successful for 25 years, since GM introduced it as a Vortec truck engine in 1985. Over the past quarter-century, millions of these engines have been built for on-road, off-road, land and sea applications (maybe even air, too), and it has ...
