By Rebecca Puhl, PhD Summer 2008 For a PDF version of this article, please click here. Obesity is highly stigmatized in our society. Individuals with excess weight or obesity are vulnerable to negative bias, prejudice and discrimination in many different settings, including the workplace, educational institutions, healthcare facilities and even within interpersonal relationships.

**Weight Discrimination: A Socially Acceptable Injustice ...**

In addition to damaging consequences for the mental health of those targeted, weight stigma adds insult to the direct injury of obesity, causing physiological stress, weight gain, disordered eating, and other maladaptive behaviors, and may increase mortality (3, 4). There is likely a bidirectional relationship between obesity and weight stigma; discrimination is a prominent consequence of ...
