phenomenon almost exclusively the preserve of countries in the northern hemisphere.

Curious Questions: Why do clocks go clockwise? - Country Life
Therefore, the shadow of the sundial will always move in a clockwise direction. (the article continues after the ad) Since for thousands of years people used to tell time by watching the shadow of the sundial move in this direction, the first clocks replicated this movement but with no apparent reason other than this being the "natural thing"; clocks could have been designed to run counter-clockwise and it would have made no difference at all.

Why Do Clocks Run Clockwise?: And Other Imponderables ...
Most timepieces have hands that turn clockwise, and the reason is much older than clocks themselves. The first thing most of us notice about clocks and watches when we learn to tell time, is that the hands turn clockwise — the habit of perceiving clockwise motion as a representation of the forward movement of time is deeply ingrained; so much so that once having learned it, most of us cease to notice it at all.
